

# ALIBI™

High Definition Surveillance

Hybrid+ accepts analog, HD analog, & IP cameras!

## 960P/1080P/IP HD-TVI

### 7000 SERIES 32-CHANNEL 1080P/960H HD-TVI/ANALOG/IP HYBRID+ REAL-TIME SECURITY DVR

Tribrid DVR uses unique Hybrid+ technology to support HD-TVI, analog CCTV, and IP camera technologies

- + Hybrid+ technology supports HD-TVI, traditional analog, and Alibi IP cameras
- + Supports up to 32 cameras: 32x HD-TVI and/or analog (any combination), up to 8x Alibi 1080p IP cameras
- + Capable of recording 720p HD video @ 30 fps per channel, 1080p full HD resolution real-time video @ 12 fps per channel
- + HD-TVI technology transmits zero latency HD video up to 1,600' over coax cabling
- + Fully compatible with all HD-TVI and analog cameras (any brand)
- + Control camera OSD settings over coax cabling (no extra data cable needed)
- + Central Management Software (CMS) can manage up to 256 devices across multiple locations from a single platform
- + VGA and HDMI output at up to 1920 x 1080 (1080p) resolution
- + H.264 video compression to maximize recording time and save hard drive space
- + Multiple selectable recording modes (continuous, motion detection, schedule and event)
- + Recording features include event search, event log, and email notification
- + Supports VCA alarm (line crossing detection and intrusion detection)
- + Free iOS and Android mobile app for remotely viewing live and recorded video
- + Supports up to 24TB internal storage (4x 6TB hard drives max)
- + Features Alibi Power Tools, a collection of powerful utilities designed to streamline and simplify the installation, set-up, and management of your Alibi surveillance system.

# ALIBI 7000 SERIES HYBRID DVR

7000 Series 32-Channel 1080p/960H HD-TVI/Analog/IP Hybrid+ Real-Time Security DVR

## FEATURES

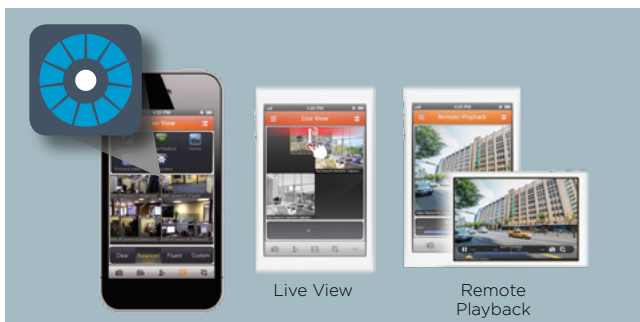

**HD-TVI Technology** - High-resolution megapixel video at a lower cost. HD-TVI sends zero latency 720p or 1080p full HD video over RG59 coax cabling. HD-TVI cameras and DVRs offer the advantages of HD resolution video, but are as easy to install as standard analog CCTV equipment. HD-TVI enables longer cable runs for long distance installations, with transmission distances of up to 1,600' over standard coax cabling (or any traditional analog CCTV cabling).

**Smart Search** - Speed up search time. Designate a specific area on-screen to play back video of any motion which occurred in that area.

**Selectable Recording Modes** - Maximize recording. The HVR/DVR/NVR offers multiple selectable recording options including continuous recording, motion detection, schedule and event to meet your video recording needs and maximize hard drive storage.

**Automated Email Alerts** - Be notified when an event occurs. The DVR will automatically send an email alert with a text notification or - short video clip when an event triggered by motion has occurred. This provides - record of the event and enables you quickly to take action when an incident occurs.

**H.264 Video Compression** - Maximize recording time and reduce file size. H.264 compression greatly reduces the size of your digital video files without compromising image quality (compared to other compression standards such as M-JPEG and MPEG-4). H.264 is a stable, proven compression technology, which offers unbeatable recording picture quality while at the same time saving you valuable hard drive storage space.

**Free Mobile App** - View your video remotely from anywhere. Enjoy convenient remote access from your iOS or Android mobile device with the free Alibi Witness mobile app. You can monitor and configure your security system from anywhere, at any time.

**Technology Agnostic** - Support for multiple technologies. Alibi CMS is engineered to support all Alibi analog, HD Analog, and IP recording solutions - delivering unparalleled flexibility today, and as your surveillance needs evolve.

**Alibi Discovery Protocol (ADP)** - Discover devices on your network. Auto-discovers all Alibi recorders and cameras on your LAN. (You don't need to know the specific IP address for each device.)

**View Multiple Cameras** - View all allotted cameras on one screen. Conveniently view up to 64 live cameras on a single screen.

**Extensive Device Support** - Get support for hundreds of devices. Provides support for up to 256 devices with a maximum of 1024 channels.

**Customizable Screen Views** - Create a custom view. Customize viewing layouts and groups - mixing and matching cameras from multiple systems and multiple locations.

**Import Mapping** - Create a map of your location. Import a location map and add devices with visual icons to the map. Set up alerts for each device on the map and receive notifications via email.

**Full Calendar Search** - Search your video fast. Quickly narrow down your search criteria, selecting weeks or days - to one-minute segments, filtering by user-defined events.

**Smart Search** - Define a search area. Define an area within your image and search for motion only within that area - to quickly locate video of traffic through a doorway, activity near an object, or other events in a specific location.

**Video Tagging** - Tag an area of interest. Create video tags that represent events of interest (such as "shoplifting") and search your video library to quickly access all tagged events at a later time.

**Instant Replay** - Replay intervals of video. Choose 30 seconds to 10-minute intervals of instant playback of recorded video. Choose your time interval and watch playback in the same pane without having to switch between live and playback screen.

**Two-Way Audio** - Communicate back-and-forth. Hear audio and communicate between two devices at two separate locations. No need to get on the phone!

**Account Management** - Manage users and permissions. Create up to 50 users for the CMS and create and manage different types of users and permission. Restrict access and grant permissions to which cameras users at various locations can and cannot see, for a customized view by user.

**Full Calendar Search** - Quickly narrow down your search criteria. Search by calendar, selecting weeks or days, within specific time segments - down to one-minute segments. You can also search by events within a specified date or time segment.

# ALIBI 7000 SERIES HYBRID DVR

7000 Series 32-Channel 1080p/960H HD-TVI/Analog/IP Hybrid+ Real-Time Security DVR

## FEATURES

**Smart Search** – Define an area within your image. Define and search for motion only within that area – to quickly locate video of traffic through a doorway, activity near an object, or other events in a specific location.

**Video Tagging** – Create video tags. Create tags that represent events of interest (such as “shoplifting”) and search your video library to quickly access all tagged events at a later time.

**Instant Replay** – Instantly switch to playback on a single camera. Switch to camera playback selecting 30 seconds to 10 minute intervals of recorded video, without having to switch between live and playback screens. Playback is displayed in the Main View and replaces live view stream with the instant replay of the camera, while still being able to see other cameras in live-view.

**Two-Way Audio** – Hear audio and communicate between two devices at two separate locations. No need to get on the phone! You can hear audio from a camera and choose to speak back either through a speaker connected to the DVR/HVR/NVR, or a speaker connected directly to a compatible IP camera.

**Event Management** – Manage events and take action. Manage events when motion is detected, or device exception and take action. Receive an alert or an email in real-time when an illegal login occurs.

**Account Management** – Manage user roles and permissions. Create up to 50 users for the CMS and create and manage different user roles and permissions. Restrict access and grant permissions to which cameras users at various locations can and cannot see, for a customized view by user.

## ALIBI WITNESS MOBILE APP

Remotely monitor the live video via wireless network, play back recorded video, and more!

- + View both live and recorded video
- + View up to 4 cameras at once on your smartphone and up to 16 on your tablet\*
- + Take snapshots or record live video directly from your mobile device
- + Store up to 16 Alibi devices at once
- + Add, delete, or modify connected devices
- + Manage PTZ camera controls with your touchscreen
  - swipe to pan/tilt and pinch to zoom
- + Digitally zoom in during live video or remote playback modes
- + Mix and match live views to access multiple Alibi recorders and IP cameras
- + Supports multiple languages
- + \*Live stream viewing performance dependent on device and network specifications.

## ALIBI CENTRAL MANAGEMENT SOFTWARE

Manage all of your Alibi cameras and recorders - even in multiple locations - from a single software application.

Alibi Central Management Software (CMS) is a professional monitoring platform that enables you to centrally manage multiple devices, at multiple locations, from a single interface.

This user-friendly software application is loaded with powerful features to enhance your management and viewing experience, including: drag-and-drop system and camera selection, customizable displays, device grouping, alarms and notifications, remote system management, and many more:

- + Agnostic Technology
- + Alibi Discovery Protocol
- + Convenient Viewing
- + Extensive Device Support
- + Customizable Screen Views
- + Import Mapping
- + Full Calendar Search
- + Smart Search
- + Video Tagging
- + Instant Replay
- + Two-Way Audio
- + Alarm Control
- + Event Management
- + Account Management

7000 Series 32-Channel 1080p/960H HD-TVI/Analog/IP Hybrid+ Real-Time Security DVR

## SPECIFICATIONS

### CONNECTORS

RS-232	Yes
RS-485	Yes
Sensor Input	16
Alarm Outputs	4
Audio In	4
Audio Out	1
Digital Outputs	HDMI
USB Ports	3
Video In	32
Video Out	HDMI, VGA

### POWER REQUIREMENTS

Power Consumption (watts/mA)	65w
Power Supply Included	Yes
Volts AC Input	100-240vac

### RECORDING SPECIFICATIONS

Channels	32
Compression Format	H.264
Email Notification	Yes
Event Search	Yes
Frame Rate (fps)	Capable of recording 720p @ 30 fps per channel & 1080p full HD resolution real-time video @ 12 fps per channel
Motion Detection	Yes
Pre/Post Alarm Recording	Yes
Privacy Video Block	Yes
Recording Resolution	Up to 1080P
Storage Capacity (TB)	24

### NETWORKING

Ethernet Ports	1
Ethernet Speed	1; 10M / 100M / 1000M self-adaptive Ethernet interface

### SOFTWARE

Browser Support	Explorer, Firefox, Chrome, Safari
Mobile App	iOS & Android
Access Control	Spec

### PHYSICAL CHARACTERISTICS

Dimensions (in)	17.5' x 15.3" x 2.7"
Hard Drive Included	No
Hard Drive Type	SATA
Number of Drive Bays	4
Relative Humidity	10% - 90%
Operating Temperature (F)	(14 °F - 131 °F)
Product Color	Black
Weight (lb)	11
Shipping Weight	15
